EXPERIENCE AND PROJECTS

Final Year Project	Aug 2024 - Feb 2025
Modern College of Arts, Science and Commerce	<i>Shivaji Nagar, Pune</i>

- **Carental- Car Renting Platform** The car rental management system is a web-based application designed to streamline the car rental process for customers and rental agencies. The platform enables users to register, browse available vehicles, make bookings, and complete payments securely online. For rental agencies, it provides tools to manage vehicle inventory, track bookings, and handle customer records efficiently. We have used HTML5, CSS3, JavaScript, Bootstrap for the frontend, PHP for the backend, MySQL for database management, and XAMPP as the local server environment.
- **CodeHub** Developed "CodeHub" - a GitHub-like platform for code snippet sharing. I have used technologies like PHP, MySQL, JavaScript, HTML/CSS

EXTRA-CURRICULAR ACTIVITIES

- Designed UI layouts and visual content for personal social media pages using tools like Figma.
- Created promotional posters and event creatives for college colleagues and small student-led initiatives
- Explored and practiced creative design through self-initiated projects and personal branding
